ARTISAN

Artisan is another new design in our hand-tufted collection.

Made from a silk and wool blend, the subtle, elegant geometric design adds a statement to your interior.

FJORD

This flat-weave collection blends wool and linen, while offering the same comfort and ease as pure wool.

Fjord Urban’s geometric, gradient design is available in a multitude of stylish colours. Fjord Stripes is a more subdued variety, working with more classical lines, but has an equally enticing look. When combined, both rugs can create a whole new dimension.
