

LIMITED EDITION

As a **textile designer**, you are responsible for designing and developing new collections on our looms.

Creativity is in your blood and you are skilled in drawing and binding. You have a talent for producing designs that are both artistically and technically feasible. You have a strong feel for parameters such as colour, structure, materials and constructions.

You are eager to learn and to deepen your knowledge of technical aspects. You develop an efficient methodology, in line with that of the team. In this role, you go through all the steps of the development process.

Tasks:

- Create new designs according to product briefing.
- Developing technically feasible designs.
- Elaborate and implement projects according to time schedule.
- Product optimisation.
- Active follow-up and support in the construction of prototypes / hand samples
- Support production for start-up / elaborate colour collection.
- Follow up on trends, visit trade fairs.

Knowledge:

- Education in textile design or graphics.
- Strong knowledge of binding techniques.
- Textile software programs: Point Carré, Nedgraphics
- Knowledge of yarns is a plus.
- Microsoft Office applications (Excel, Outlook, Word, PowerPoint, ...).
- Knowledge of flat-weave and jacquard looms.
- You are Dutch speaking with good knowledge of French. English is a plus.
- You are both creatively and technically gifted.
- You have an eye for colour and composition.
- You work accurately with an eye for detail.
- You can handle time schedules in a very professional manner.

In terms of personality, we are looking for a proactive, independent, driven go-getter. A dynamic, communicative person with a hands-on mentality who enjoys working in a team.
