The Herringbone repeats every 32 cm. We recommend choosing dimensions that are multiples of 32 cm. If not and whenever possible, the rug will be centered without full repeat of the herringbone design.

Das Fischgrätmuster wiederholt sich alle 32 cm. Wir empfehlen, Maße zu wählen, die Vielfache von 32 cm sind. Wenn nicht und wann immer möglich, wird der Teppich zentriert, ohne dass das Fischgrätmuster vollständig wiederholt wird.

Le motif à chevrons se répète tous les 32 cm. Nous recommandons de choisir des tailles qui sont des multiples de 32 cm. Si ce n'est pas le cas et si possible, le tapis sera centré sans répétition complète du motif chevron.

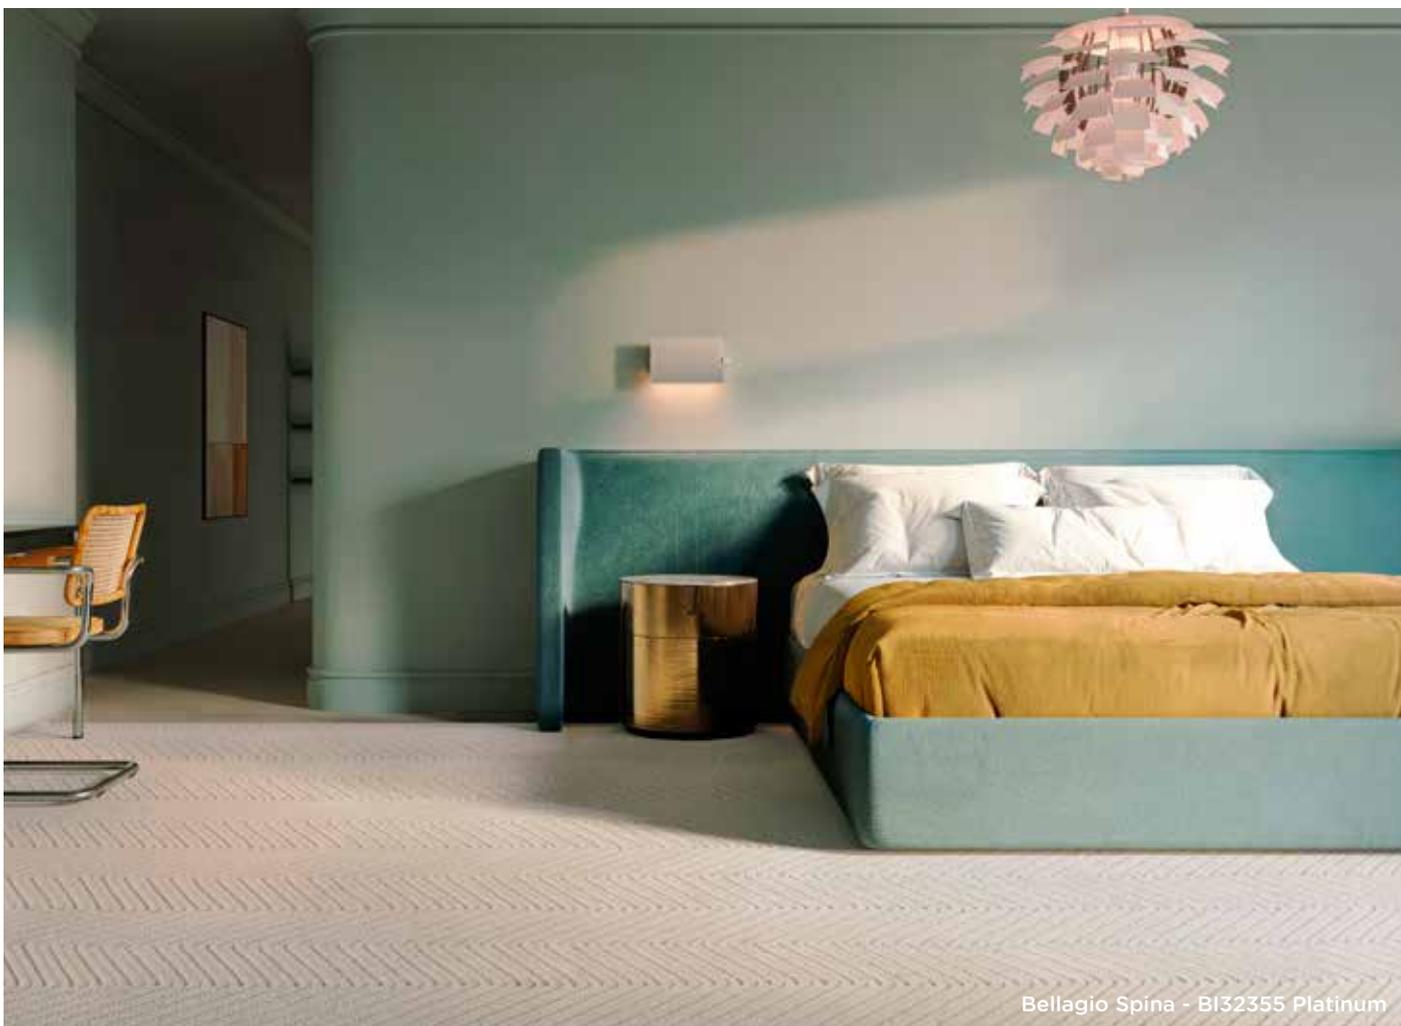

El diseño de espiga se repite cada 32 cm. Recomendamos elegir dimensiones que sean múltiplos de 32 cm. Si no, y siempre que sea posible, la alfombra se centrará sin la repetición completa del diseño de espiga.

Het visgraatpatroon herhaalt zich elke 32 cm. We raden aan om afmetingen te kiezen die veelvoudend zijn van 32 cm. Zo niet, dan wordt het tapijt, wanneer mogelijk, gecentreerd zonder volledige herhaling van het visgraatpatroon.

Il motivo a spina di pesce si ripete ogni 32 cm. Consigliamo di scegliere dimensioni che siano multipli di 32 cm. In caso contrario, e quando possibile, il tappeto verrà centrato senza la ripetizione completa del motivo a spina di pesce.

These designs are created using a cut and loop effect. Your chosen color is tufted in cut pile (appearing as the darker shade in the design) and loop pile (appearing as the lighter shade).

- Ces dessins sont réalisés grâce à un effet coupé-bouclé. Votre couleur est tuftée en coupé (teinte plus foncée dans le motif) et en bouclé (teinte plus claire).
- Deze tekeningen zijn gerealiseerd in cut-loop effect. Uw kleur wordt getuft in gesneden pool (donkerste kleur in motief) en in lussenpool (lichtste kleur).
- Diese Designs werden mit einem Cut-and-Loop-Effekt erstellt. Ihre Farbe wird in geschnittenem Flor (als dunklerer Farbton im Design erscheint) und in Schlingenflor (als hellerer Farbton erscheint) getuftet.
- Questi disegni sono realizzati utilizzando un effetto taglio e ricciolo. Il colore scelto è tuftato in pelo tagliato (che appare come la tonalità più scura nel disegno) e pelo ricciolato (che appare come la tonalità più chiara).
- Questi design sono realizzati utilizzando le tecniche di lavorazione cut-pile e bouclé. Il colore scelto viene tuftato in cut-pile (individuabile come la tonalità più scura nel design) e bouclé (la tonalità più chiara).

## Create your own Cosmic Design

These designs are created using a cut and loop effect. Your chosen color is tufted in cut pile (appearing as the darker shade in the design) and loop pile (appearing as the lighter shade).

- Ces dessins sont réalisés grâce à un effet coupé-bouclé. Votre couleur est tuftée en coupé (teinte plus foncée dans le motif) et en bouclé (teinte plus claire).
- Deze tekeningen zijn gerealiseerd in cut-loop effect. Uw kleur wordt getuft in gesneden pool (donkerste kleur in motief) en in lussenpool (lichtste kleur).
- Diese Designs werden mit einem Cut-and-Loop-Effekt erstellt. Ihre Farbe wird in geschnittenem Flor (als dunklerer Farbton im Design erscheint) und in Schlingenflor (als hellerer Farbton erscheint) getuftet.
- Questi disegni sono realizzati utilizzando un effetto taglio e ricciolo. Il colore scelto è tuftato in pelo tagliato (che appare come la tonalità più scura nel disegno) e pelo ricciolato (che appare come la tonalità più chiara).
- Questi design sono realizzati utilizzando le tecniche di lavorazione cut-pile e bouclé. Il colore scelto viene tuftato in cut-pile (individuabile come la tonalità più scura nel design) e bouclé (la tonalità più chiara).

## Create your own Maestro Design

These designs are created using a cut and loop effect. Your chosen color is tufted in cut pile (appearing as the darker shade in the design) and loop pile (appearing as the lighter shade).

- Ces dessins sont réalisés grâce à un effet coupé-bouclé. Votre couleur est tuftée en coupé (teinte plus foncée dans le motif) et en bouclé (teinte plus claire).
- Deze tekeningen zijn gerealiseerd in cut-loop effect. Uw kleur wordt getuft in gesneden pool (donkerste kleur in motief) en in lussenpool (lichtste kleur).
- Diese Designs werden mit einem Cut-and-Loop-Effekt erstellt. Ihre Farbe wird in geschnittenem Flor (als dunklerer Farbton im Design erscheint) und in Schlingenflor (als hellerer Farbton erscheint) getuftet.
- Questi disegni sono realizzati utilizzando un effetto taglio e ricciolo. Il colore scelto è tuftato in pelo tagliato (che appare come la tonalità più scura nel disegno) e pelo ricciolato (che appare come la tonalità più chiara).
- Questi design sono realizzati utilizzando le tecniche di lavorazione cut-pile e bouclé. Il colore scelto viene tuftato in cut-pile (individuabile come la tonalità più scura nel design) e bouclé (la tonalità più chiara).

Both widths are turned under and the lengths are serged with a matching woolen yarn on which an elegant braid is sewn.

Beide Breiten sind untergegeschlagen; die Längen sind mit passendem Wollgarn gekettelt und einer eleganten Borte versehen.

Les deux largeurs sont rembourées et les longueurs sont surjetées avec un fil de laine assorti sur lequel une tresse est cousue.

Ambos anchos están doblados por debajo y los largos llevan una costura en lana formando una elegante trenza.

De twee breedtes zijn omgevouwd en de lengtes zijn afgeboord met een wollen matching draad op dewelke een vlechtje is genaaid.

Entrambe le larghezza sono risvoltate all'interno mentre le lunghezze sono fissate con un filo di lana abbinato su cui viene cucita una elegante treccia.

# Care

**Your Limited Edition rug is made with the best care and attention.**

In order to keep your rug as beautiful as it is intended to stay, please make sure to read the **following maintenance instructions** carefully.

## **At the reception of the rug(s):**

Upon receiving your rug, please make sure to remove all packaging immediately to allow any residual moisture to dissipate. After gently unrolling the rug, we recommend allowing it to rest and breathe for 24 to 48 hours. This period will help the pile return to its original shape and allow the backing to adjust to the ambient room temperature, enabling the rug to lay flat naturally.

Do not place any objects on the rug during this settling process.

If you will not be installing your rug right away, please follow the steps above and store it flat in a dry, clean environment with a stable temperature.

Little flocks (or small balls of fluff) appearing: don't worry this will reduce after a few months or even a year but will never disappear completely. It is inherent to natural fibers.

In case of long threads, cut them with sharp scissors, never pull, this will damage the surface of the rug.

- We recommend vacuuming your rug at least twice per week, and more frequently—ideally daily—in high-traffic areas. For optimal care, use a high-quality vacuum cleaner appropriate for the rug construction. Use a suction-only vacuum to prevent fiber damage
- Vacuum in multiple directions to help lift the pile and minimize matting.
- In order to avoid 'regular use marks', we advise you to rotate the rug every three months. This will alter the traffic pattern on your rug's surface.

- Do not use highly acidic cleaning agents, bleaching products or white spirit to remove stains from your in- or outdoor rug. This will cause discoloration of the yarn.
- Do not use a high-pressure cleaner on your outdoor rug.
- Don't drag your furniture or chairs over your rug: lift them up. This will avoid ripping yarns out or leaving ugly marks.
- Do not fold your rug. Roll your rug from the short side. Rolling the rug is the best way to help the rug's fibers stay in good shape when moving or storing it. Make sure the rug is kept horizontal while stored and do not put heavy furniture on the rolled rug.
- Never use water on rugs made of leather, sisal, Tencel, bamboo, viscose fibers. Always check what your rug is made of before taking any action.

## Removal of stains

Effective stain removal requires time and patience, as certain stains may disappear only after repeated treatment.

- For wet spills, gently blot to absorb the maximum with white absorbent paper or cloth towels, working from the outer edge towards the center. Never rub or scrub, as this may damage the fibers. Apply light pressure, replace the towels when saturated, and, if needed, add a few drops of water to dilute and repeat until the stain is removed or dry.
- For dry stains, carefully scrape residue towards the center using a spoon or dull knife, then vacuum the remaining particles. Avoid excessive pressure to protect the fibers.
- For heavy or transferred stains, we strongly recommend professional dry cleaning by a rug specialist. Please clearly indicate that the rug must be cleaned without the use of water.

Our **Easy Care** rugs are suitable for outdoor use.

**We understand that outdoor areas are an extension of your living space, and our rugs are designed to enhance these environments while withstanding regular outdoor use. To help preserve their beauty and extend their lifespan, we recommend placing your rug in a covered or sheltered area, such as under a porch or awning, and avoiding prolonged exposure to direct sunlight. When the rug is not in use, please store it indoors.**

**Regular maintenance is crucial for keeping them in top condition and extending their lifespan.**

### Weekly Care

- Vacuum or brush your rug thoroughly at least once a week, or use a leaf blower to remove loose dirt and dust.
- As with indoor rugs, rotate your outdoor rug every few months, especially if parts of the rug are under furniture or receive uneven sunlight. This ensures even wear and prevents fading in areas exposed to direct sunlight.

### Stain Removal

- For tougher stains, dissolve soda crystals in a bucket of hot water.
- Do not use highly acidic cleaning agents, bleaching products, or white spirit, as these may cause discoloration of the yarn.
- Use a medium-hard brush, soak it in the solution, and scrub gently until all stains are removed.
- Rinse thoroughly and allow the rug to dry completely in the sun preferably by hanging it.
- Never use a high-pressure cleaner.

### Seasonal Care

- Autumn: As leaves begin to fall, increase your cleaning frequency to prevent the buildup of organic debris. These rugs are not intended for direct exposure to rain or prolonged moisture to preserve their quality and appearance, we recommend using them in locations with adequate shelter or covered outdoor areas.
- Winter: Outdoor rugs can absorb water, but without sufficient sunlight to dry, they may retain moisture over time. It is essential to perform a final thorough cleaning, ensuring the rug is completely dry on both sides preferably by hanging it in sunlight, rolling it up and storing it indoors when the weather is still dry.
- Spring: Before reinstalling your cleaned outdoor rug, make sure the underlying surface is clean and dry. This ensures no dirt transfers back to the rug.
- Summer: During warmer months, your outdoor rug will likely experience the most use. Regular vacuuming is essential. Avoid prolonged exposure to direct sunlight, which can cause fading.
