Suspended above Rotterdam, this apartment pairs cinematic views with a richly detailed interior. Designer Linda Lagrand transformed the blank canvas into a home that combines bold gestures with soft, feminine refinement.

On a clear day you can see neighbouring The Hague from the balcony. The *Dala* lounge chairs and matching side table in colour *Cuba* are all from Dedon, the rug is a *Poolside Circle* in *Canvas* from Limited Edition, and the *Dome nomad* floor light is from Brokis.

In the lounge, the curtains are fashioned from *Zen* fabric by Dedar, while the wallcovering is *Zanzibar* from Elitis. A generous *Cestone* from Flexform in *Infinity* soft fabric by Zimmer + Rohde, with cushions and a throw from Evolution 21, make the space more than ready for entertaining. A multi-tier *Gaia* pendant light fixture from Ochre hangs

above a *Helix* coffee table from Cattelan Italia; on it sits a rare Italian 70s glass bowl (*Mod. S505* from Mazzega Catalog no. 9) from AtKris Studio and a *Monster* diffuser by the Haas Brothers for L'Objet. The wall art is by Elsemarijn Bruys, via Contour Gallery. On the floor, an *Agate Low* rug in custom colours from Limited Edition.

Not afraid to mix and match elements, the designer's vision comes into clear focus in the bedroom. Phillip Jeffries' mural *Prelude Botanic on Birch Rule* floored covers the focus wall, the curtains are as before. The *Wings* bed from Wittmann is upholstered in *Magma* fabric from Lizzo. Next to it is a nightstand in *Smoked burgundy* from Bieke Casteleyn, and above it, 73 *V Purple* lights from Bocci.

The bedroom looks out over Rotterdam harbour and the Maas river that runs through it. The *Hermitage Leeds* wallpaper is from Tissage Mahieu, with the curtains made from *Silkbird Jacquard* fabric from Dedar. The *Nana* love seat from Freifrau is upholstered in *Monarch* fabric

from Zimmer + Rohde, while next to it sits a *Still* side table from Minotti with a vintage ceramic vase. The *Spiro* rug in *Auburn Brown* is from Limited Edition. Just visible at the foot of the bed is the unit that houses a sunken TV screen; the unit is covered in *Galerie* wallpaper from Élitis.
