

Internships

Manual

Want to give an intern the opportunity to gain work experience at your organisation? According to the eleventh agreement within *Juist is Juist*, internships are only possible within a learning context. The Joint Committee has specific CLAs that regulate internships. There are also specific internship opportunities in the media sector. In this tool, we explain what these mean in more detail. We conclude with an overview of other internship opportunities and the associated obligations – these may differ depending on the region.

School internships

Internships CLA: Joint Committee 304

The Internships CLA (signed in December 2020) stipulates the circumstances and conditions for organising an internship in an organisation **for students in higher or adult education**. Such an internship can never be a substitute for or replace regular employment. The organisation of the work should not depend on the presence or absence of interns.

Consult the Internships CLA [here](#).

Conditions to be met by the intern

- The intern receives **no salary** (since it is not a situation of regular employment).

Condition to be met by the educational institution

- the educational institution **insures** the intern against **work-related accidents**.

Conditions to be met by the internship provider/organisation

- the internship provider reimburses **transportation and other expenses** just like it does for its employees
- the internship provider is responsible for appointing an **intern mentor**. This person monitors the content and quality of the internship and makes time for supervision, consultation and feedback;
- the internship provider provides an **internship agreement**. This is an agreement between the organisation and the educational institution. The agreement must include a description of the internship, a substantive plan and an overview of the competences to be developed;
- the internship provider prepares a **report** at the end of the internship;

- the internship provider **insures** the intern for **third-party liability** and provides the educational institution with a **risk analysis** of the workplace;

Media internships: Joint Committee 227 and Joint Committee 303.01

Conditions to be met by the intern

- ✓ The school leaver can participate in the media internship on condition that the intern is registered as a jobseeker, is younger than 26* and is not receiving benefits. The intern remains available for the labour market.
- ✓ This means that the intern must be prepared to accept any appropriate employment.
- ✓ The intern creates a Profile Page on the MediarTE website (mandatory).
- ✓ To ensure that the internship provider knows the intern's starting skills and/or to estimate them as accurately as possible, the intern completes the Self-Assessment Tool. This results in a personal training plan.

* The internship must start before your 26th birthday

Conditions to be met by the organisation

- ✓ Under no circumstances may the intern replace an employee
- ✓ An internship progress document that is concluded between the intern, the internship provider and *MediarTE* contains a list of skills that must be developed during the internship. This document is signed by all parties. In the case of non-compliance with the internship agreement or the internship progress document, *MediarTE* has the right to terminate the internship at any time. There is continuous ongoing communication between the three parties in order to guarantee a smooth internship.
- ✓ An intern mentor is appointed to provide the best possible support for the intern during the internship period.
- ✓ An internship lasts a minimum of 4 weeks and a maximum of 12 weeks. It is therefore a longer internship period in which the didactic framework can be fully developed for both parties.
- ✓ The internship provider is entitled to a maximum of 26 weeks internship per year for every 30 employees (FTE). For example: 45 employees (FTE) = maximum 52 weeks internship, 165 employees (FTE) = maximum 180 weeks internship

- ✓ The internship provider draws up a roadmap together with a *Mediarte* consultant for the full duration of the internship. This roadmap contains the following information: - Title and description of the position that the intern will fill - Description of the skills to be learned based on existing frames of reference - Work post datasheet - Risk analysis - Name and position of the intern mentor - Manner in which the intern will be supervised, monitored and evaluated
- ✓ The internship provider must insure the intern against accidents that occur during the internship or on the way from his or her place of residence to the internship location and back ("work-related accidents and accidents while travelling to and from work"). This insurance must provide the same cover as that stipulated by the Occupational Accidents Act of 10 April 1971, with the proviso that no compensation for temporary work disability is owed.
- ✓ The internship provider must ensure that the intern has all the tools needed to perform the job properly.

Other internship opportunities

Since 2013, all employers who fall under the CLA Act, regardless of the number of employees that each separately employs, are obliged to make available a number of internships each year amounting to 1 percent of their total workforce. This is a best efforts obligation on the part of the employer to make internships available.
